# Healthcare vs Lifestyle

Best Friend AI

Problem

- Inefficient and delayed diagnosis in healthcare, leading to worsened patient outcomes

- Overburdened healthcare systems and professionals

- Accessibility issues for remote or underserved populations

Dr. House

AI diagnistician in your phone

If I had an hour to solve a problem I'd spend 55 minutes thinking about the problem and 5 minutes thinking about solutions.

— Albert Einstein —

professionals say
correct diagnosis is ~70% of healing

Ask Correct Questions

- use by ordinary people

- use by doctors for double-check and a second opinion
